

Working On It!

- 1) 148
- 2) 419
- 3) 729
- 4) 310
- 5) 561
- 6) 631
- 7) £259
- 8) $339 - 8 = 331$

Got It!

- 1) 652
- 2) 769
- 3) 459
- 4) 541
- 5) 218
- 6) Mindy has 287 stickers.
Henry has 279.
Mindy has more.
- 7) The top image doesn't show $339 - 8$. It shows $340 - 8$ instead.
The second picture does show $339 - 8$.
- 8) There are lots of possible answers for this.

Possible answers

- $340 + 2$
- $341 + 1$
- $342 + 0$
- $343 - 1$
- $344 - 2$
- $345 - 3$
- $346 - 4$
- $347 - 5$
- $348 - 6$
- $349 - 7$
- $350 - 8$

Smashed It!

- 1) 359
- 2) 653
- 3) 712
- 4) 498
- 5) 229 cubes

- $349 - 7$
- $350 - 8$

- 8) This is sometimes true.
Sometimes only the 1 column changes. For example: $345 - 1 = 344$

Sometimes the numbers in the 10s column will add to more than 10 and this would change our tens column. For example:
 $119 + 3 = 122$
